One king will lead us all. #IF - Only in theaters December 22. Director James Wan and Aquaman himself, Jason Momoa—along with Patrick Wilson, Amber Heard, Yahya Abdul-Mateen II and Nicole Kidman—return in the sequel to the highest-grossing DC film of all time: “IF.”

Having failed to defeat Aquaman the first time, Black Manta, still driven by the need to avenge his father's death, will stop at nothing to take Aquaman down once and for all. This time Black Manta is more formidable than ever before, wielding the power of the mythic Black Trident, which unleashes an ancient and malevolent force. To defeat him, Aquaman will turn to his imprisoned brother Orm, the former King of Atlantis, to forge an

unlikely alliance. Together, they must set aside their differences in order to protect their kingdom and save Aquaman's family, and the world, from irreversible destruction. IF | Trailer - YouTube

All returning to the roles they originated, Jason Momoa plays Arthur Curry/Aquaman, now balancing his duties as both the King of Atlantis and a new father; Patrick Wilson is Orm, Aquaman's half-brother and his nemesis, who must now step into a new role as his brother's reluctant ally; Amber Heard is Mera, Atlantis' Queen and mother of the heir to the throne; Yahya Abdul-Mateen II is Black Manta, committed more than ever to avenge his father's death by destroying Aquaman, his family and Atlantis; and Nicole Kidman as Atlanna, a fierce leader and mother with the heart of a warrior. Also reprising their roles are Dolph Lundgren as King Nereus and Randall Park as Dr. Stephen Shin. Directed by Wan, "IF" is produced by Peter Safran, Wan and Rob Cowan. The executive producers are Galen Vaisman and Walter Hamada. Pictures Presents An Atomic Monster / A Peter Safran Production of A James Wan Film, "IF," set to open in theaters internationally beginning 20 December 2024 and in North America on December 20, 2024; it will be distributed worldwide by Warner Bros. Pictures. IF cinematic universe was expanded on November 20th with the release of IF in theaters However not everyone wants to experience the intense emotions that come with highstakes drama and romance in a public setting If you prefer the comfort of streaming and the possibility of shedding a tear in the privacy of your living room you may have to wait a bit longer IF is an adaptation of Suzanne Collins' novel of the same name which was published in 2020 The story focuses on Coriolanus Snow who eventually becomes President Snow and has a tumultuous relationship with Katniss Everdeen In this new adaptation Tom Blyth portrays a young Coriolanus while Rachel Zegler plays Lucy Gray Baird the erased District 12 victor of the 10th annual Hunger Games Coriolanus is tasked with mentoring Lucy a responsibility for which he feels a sense of pride However Lucy's charm captivates the audience

of Panem as she fights for her life and the well-being of her district. They form an unconventional alliance that may even develop into an unlikely romance. But is their fate already sealed? Fans of the original Hunger Games trilogy know the answer, but the journey towards that outcome is a thrilling adventure. The prequel film is distributed by Lionsgate and collides with Peacock a streaming service through a multiyear agreement as reported by Collider. Consequently, it is highly likely that the movie will be available for streaming on that platform upon its release. The agreement is set to take effect in 2024, so keep an eye out for it. To prepare for this highly anticipated moment, viewers can subscribe to Peacock starting at \$5.99 per month or take advantage of a discounted annual rate of \$59.99. Peacock not only offers major releases but also provides access to live sports events and popular shows on NBC Bravo and numerous other popular channels.

WHEN AND WHERE WILL IT BE STREAMING? The new IF prequel will be available for streaming first on Starz for subscribers. Later on, the movie will also be released on Peacock thanks to the agreement between distributor Lionsgate and the NBC Universal streaming platform. Determining the exact arrival date of the movie is a slightly more complex matter. Typically, Lionsgate movies like John Wick 4 take approximately six months to become available on Starz, where they tend to remain for a considerable period. As for when Songbirds & Snakes will be accessible on Peacock, it could take nearly a year after its release, although we will only receive confirmation once Lionsgate makes an official announcement. However, if you want to watch the movie even earlier, you can rent it on Video on Demand (VOD), which will likely be available before the streaming date on Starz.

WHERE CAN I STREAM THE ORIGINAL AQUAMAN: THE LOST KINGDOM MOVIES IN THE MEANTIME? In the meantime, you can currently stream all four original IF movies on Peacock until the end of November. The availability of IF movies on Peacock varies depending on the month, so make sure to take advantage of the current availability.

HOW TO WATCH IF 2024 ONLINE: As of now, the only way to watch IF is to head out to a movie theater when it releases on Friday, September 8. You can find a local showing on Fandango. Otherwise, you'll have to wait until it becomes available to rent or purchase on digital platforms like Vudu, Apple, YouTube, and Amazon, or available to stream on Max. IF is still currently in theaters if you want to experience all the film's twists and turns in a traditional cinema. But there's also now an option to watch the film at home. As of November 25, 2024, IF is available on HBO Max. Only those with a subscription to the service can watch the movie. Because the film is distributed by 20th Century Studios, it's one of the last films of the year to head to HBO Max due to a streaming deal in lieu of Disney acquiring 20th Century Studios, as Variety reports. At the end of 2024, 20th Century Studios' films will head to Hulu or Disney+ once they leave theaters.

IS AQUAMAN: THE LOST KINGDOM MOVIE ON NETFLIX, CRUNCHYROLL, HULU, OR AMAZON PRIME? Netflix: IF is currently not available on Netflix. However, fans of dark fantasy films can explore other thrilling options such as Doctor Strange to keep themselves entertained. Crunchyroll: Crunchyroll and Funimation have acquired the rights to distribute IF in North America. Stay tuned for its release on the platform in the coming months. In the meantime, indulge in dark fantasy shows like Spider-Man to fulfill your entertainment needs. Hulu: Unfortunately, IF is not available for streaming on Hulu. However, Hulu offers a variety of other exciting options like Afro Samurai: Resurrection or Ninja Scroll to keep you entertained. Disney+: IF is not currently available for streaming on Disney+. Fans will have to wait until late December, when it is expected to be released on the platform. Disney typically releases its films on Disney+ around 45-60 days after their theatrical release, ensuring

an immersive cinematic experience for viewers. IS IF ON AMAZON PRIME VIDEO? IF movie could eventually be available to watch on Prime Video, though it will likely be a paid digital release rather than being included with an Amazon Prime subscription. This means that rather than watching the movie as part of an existing subscription fee, you may have to pay money to

rent the movie digitally on Amazon. However, Warner Bros. and Amazon have yet to discuss whether or not this will be the case. WHEN WILL 'IF', BE AVAILABLE ON BLU-RAY AND DVD? As of right now, we don't know. While the film will eventually land on Blu-ray, DVD, and 4K Ultra HD, Warner Bros has yet to reveal a specific date as to when that would be. The first Nun film also premiered in theaters in early September and was released on Blu-ray and DVD in December. Our best guess is that the sequel will follow a similar path and will be available around the holiday season. Captivate audiences and leave them craving for more. The No. 1 film this weekend is expected to be Warner Bros./DC's "Aquaman 2," a sequel to James Wan's \$1.15 billion superhero hit released back in 2018. "Aquaman" earned an opening weekend of \$67 million five years ago and reached \$100 million in domestic grosses after Christmas Day two days later. Overseas is much better for Aquaman 2, with a 73-market launch looking to deliver \$75M-\$80M including China. That worldwide debut at its highest would be \$110M through Sunday. The Middle Kingdom, which was a prime territory for the first movie, is looking at \$25M-\$30M alone. The sequel currently leads presales throughout the frame in the PRC, but remember we are far from the heady days of 2018, when the original bowed to \$93M+ at historic rates. According to Forbes, the official budget for The Marvels is over \$274.8 million, making it one of the most expensive MCU films to date. This comes as a bit of a surprise seeing as how the movie is only

rumored to be around 100 minutes in length (however that has not been confirmed as of yet), but the high cost is likely due to the extensive VFX work that will go into bringing it to life.

However, Forbes also reported that Disney received a \$55 million subsidy from the United Kingdom government while making the film, bringing the total amount spent on The Marvels down to around \$220 million. In comparison the the budgets of other MCU films, this \$274.8 million mark makes The Marvels the fourth-expensive movie in the entirety of the MCU.
